# TURBOJET ENGINES

designed for military air vehicles

## MAIN FEATURES

- ✓ Excellent thrust-diameter-weight ratio
- ✓ Compact design
- ✓ ITAR-free
- ✓ Reliable in-flight start
- ✓ Digital electronic control (FADEC)
- ✓ Integrated starter-generator
- ✓ High G - force resistance

- Wide range of starting and operation capabilities

## PBS – A REAL PARTNER FOR ENGINE INSTALLATION

- Assistance with design of air inlet
- Installation consultancy
- Technical support
- Customised solutions
- Testing services

## PBS – REALIBLE TECHNOLOGY PROVEN BY OPERATION

Over 1,300 engines operated on UAVs worldwide  
In-house design, development and testing
